

## 技術ノート KGTN 2013032801

### 現象

[GGH4.6] GGH4.6 の主な変更点を知りたい。

### 説明

2013 年 3 月 28 日時点で得ている情報 (GGH4.6 の主な変更点) は, 以下の通りです。

Support for Internet Explorer 10.0.
Support for Mozilla Firefox 17 (ESR) on Windows.
Support for Google Chrome on Windows 7. The GO-Global Chrome Extension can be installed from the Chrome Web Store or via direct download. The extension also gets installed when running the native Windows Client installer (gg-client.windows.exe).
Client printing is supported on the iOS Client with iOS devices running iOS 5.1 or later.
Linux Client support on Ubuntu 12.04 LTS (32-bit/64-bit).
The iOS Gateway Client provides access to GO-Global gateways. Using an Apple iPad, users can sign in to the gateway and run applications remotely.
License file upgrade. The Host installation will check if the license maintenance is valid and automatically upgrade the license to version 4.6. If the maintenance is expired, the installation will present a warning message and redirect to a license upgrade page. The 4.6 installation may continue but the license service will not start until a 4.6 license is present.
Numerous changes have been implemented to provide better performance and stability.
