

技術ノート KGTN 2014020801

現象

[GGH4.X] GGH4.8.1 の動作環境に “The following browsers are supported with Adobe Flash Player 9: Internet Explorer 10.0 and 11.0” とあるが、IE8 や IE9 では動作しないということか？

説明

将来のことを考えれば IE10 や IE11 にアップグレードすることが望ましいのですが、GGH4.X では IE8 および IE9 でも問題なく動作します。

I have just connected to my 4.8.1 host from an XP machine running IE8.0 and it works fine. I have also connected from an Vista machine with IE9.0 and that also works fine. So you are fine to leave them at 8.0/9.0 for the time being.
